I'm Be2Smart
The generative AI module of B2Suite

🔧 I'm designed to revolutionize the way you create and maintain your test matrices

🧠 I understand your business language and automatically generate your test scenarios

🔄 I strengthen the alignment between your functional requirements and your test cases

⏱️ I save you valuable time while securing your deliverables

☁️ I adapt to your environment: you can use me with a proprietary LLM, in SaaS mode, or through your own secure cloud account

I'm already trusted by leading European institutions, who rely on me to automate their testing with reliability and performance
